Luanda _ Angola

904 /DEGER/INACOM/2025
STANDARD TYPE APPROVAL CONDITIONS

1-INACOM, Angolan institute of communications, issues certificate homologation, or Type approval, relating to any type of radio electric equipment. INACOM, evaluates and analyses case by case according to the applications addressed to itself, reserving the right of authorizing them or not, in compliance with international guidance, applicable to each case, and taking into account the national interests and spectrum availability.

2-In compliance with CEPT/ERC/REC 70-03 recommendations and standards EN300 328/EN301489 of ETSI, by the fact of África belongs to the same region of ITU to which Europe belongs, submitted to the limitation of the spectrum available;

3-It may not cause interference to other systems duly licensed, operating in the same bands or adjacent bands;

4- It is unprotected relating to other systems duly licensed, operating in the same bands or adjacent bands;

5-As the use of the equipment is outside the control of the regulator body, the regulator body shall not be liable for any loss or damage caused to the person or persons using the equipment covered by this certificate nor any malfunction of the equipment howsoever caused;

6-This declaration only covers equipment of the type specified in the original application. If there is any change in the equipment specification from the original sample(s) or specification(s) or description(s) supplied for type approval then a new certificate must be applied for;

7-It shall be an offence to use this declaration number in connection with any other equipment not specified by this declaration. The offender shall be liable for cancellation of any approved supplier certificate.

8-This declaration shall be revalidate yearly, and this type approval will be null and void if the specification of the equipment changes like:

- a)Modification of hardware
- b)Modification/Upgrade of the software
